

CONFIDENTIAL

TID-209/65
1 September 1965

MEMORANDUM FOR: Assistant for Plans and Development

ATTENTION: [REDACTED] 25X1A

SUBJECT: Instrument Vacuum System

REFERENCE: TID Memo 10/65
TID-202/65, dated 19 August 1965

1. The current NPIC study to determine Clean Room requirements and the path the Center should pursue and the information gleaned from the Contamination Control Lectures indicate such a vacuum system may not be necessary or the best means to maintain proper control. Therefore, TID desires to investigate the problem further before deciding on such a vacuum system.

2. Request no action be taken by P&DS on a vacuum system until notified by TID.
